On Saturday in the court chambers brief memorial services were held by the members of the Logan City bar and Judge Call when resolutions of respect were passed and signed by the Judge and a decision reached to engrave a copy and present to the widow of the late James Z. JENSEN'S MEN WALLOP THE UNIVERSITY

STANDING OF THE TEAMS

	Won	Lost	Pct
B. Y. U.	5	0	1000
B. Y. C.	3	3	500
U. of U.	2	3	400
U. A. C.	1	5	200

*The game which the U. won from the B. Y. C. goes to locals on account of Pack-er of the University being declared ineligible. There is one more game to be played. That is between the U. of U. and B. Y. U.

Coch Norgren as well as his basketball team were given a trouncing that they will not soon forget, by the B. Y. College basketball team Saturday night, the final score being 22 to 17. From the first whistle, the local players took the lead and kept it throughout, at no time being in danger of the visitors.

The first half ended 16 to 6, and this score about represents the real merits of the respective teams. The old style basketball which has done so much to make this game so popular in Utah that was played at the B. Y. College during championship days, entered into the playing during the first half of the game and it was evident "Utah" was outclassed. Williams of the local team played his man Clark to a standstill and while playing at the position of guard and shutting his man out, he procured three field baskets. Peterson at center did exceptionally well. He also got three field baskets, as against three for his opponents, Briggs and McIntyre. The team work of Jensen's men was very good.

We don't know of a game this season where the students got behind their team as they did Saturday night and their influence had much to do with the work of the boys. We must congratulate every man on the B. Y. team for their plucky work of defeating, what has been considered the best team in the state, and making the defeat so decisive.

The lineup was as follows:
U. of U. B. Y. C.
Van Pelt-Udy Hill
Clark Wright
McIntyre-Briggs Peterson
Romney-Beal Hurren
Knowlton Williams
Referee—Austin Miller, Umpire—Homer Christensen.

Friday's Game
Last Friday night the Logan basketball fans saw the first basketball game played under the collegiate rules, in the game between the State University and the Aggies. Everyone expressed themselves as being dissatisfied with the new rules.

The "U" boys carried off the honors, winning by the score of 36 to 19. They took advantage of the rules under which they played and some of these tactics helped them win. The Aggies played a good game and at no time did they show an inclination to use the collegiate rules. The game was poorly refereed which was observed when the large crowd voiced their disapproval of some of the decisions rendered.

Captain Beal and Clark of the visitors were the star performers for their team. Beal's work from the foul line and Clark's work on the floor featured. Kapple played a wonderful game for the locals. He scored all but four points for the Aggies.

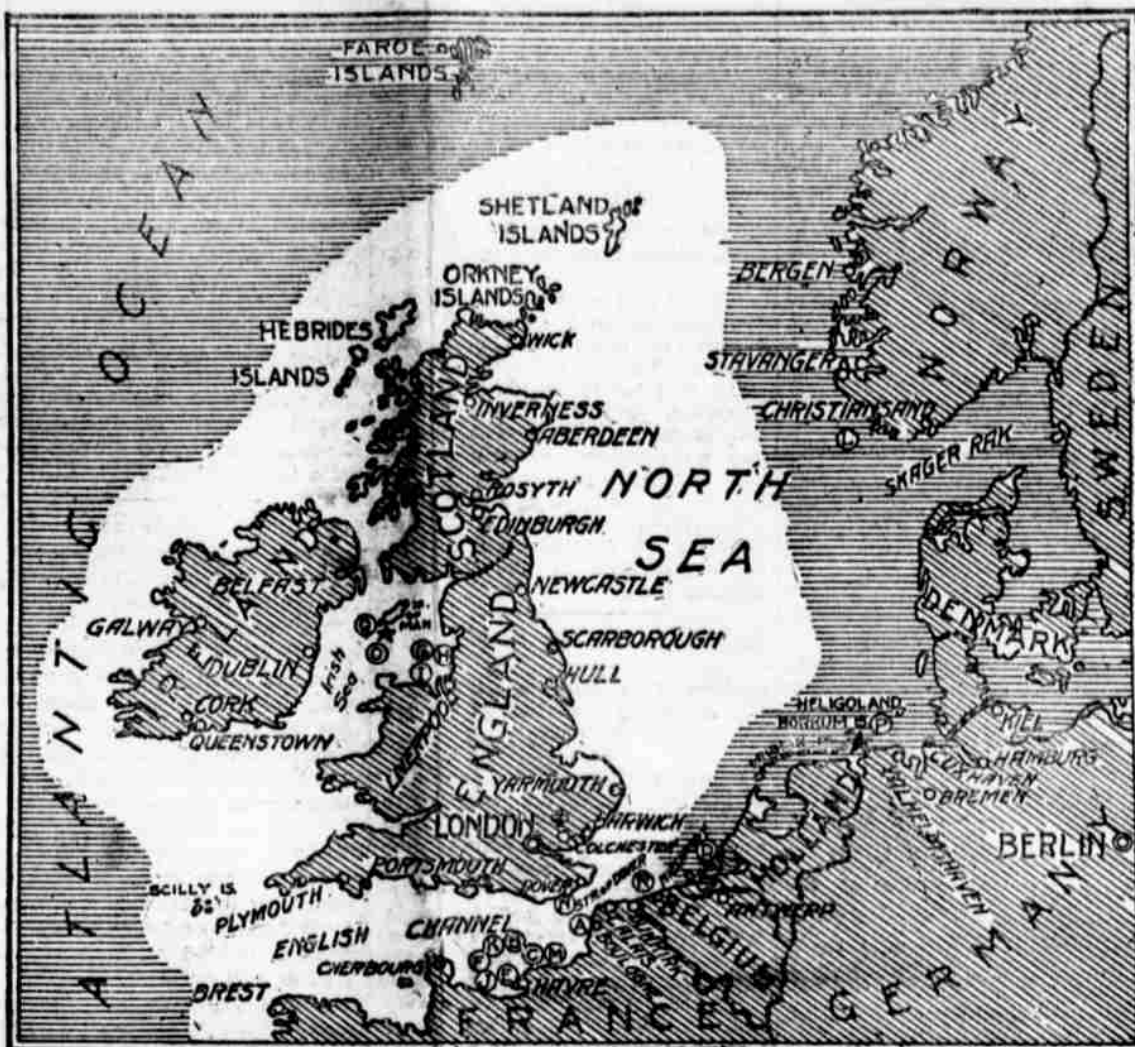

The lineup and score:

Farmers and Factory Officials Get Together to Produce a Big Acreeage of Beets

At a beet growers meeting held on the 6th day of March, 1915, at the Commercial Boosters Club rooms eleven beet districts were represented by their committees. It was decided to accept the Sugar Company offer of \$4.75 per ton for beets delivered at the different loading stations on the railroad and \$5 per ton for all beets delivered at the factories for the year 1915, with the understanding that the price will be raised in 1916 to \$5 per ton for all beets delivered at loading stations, and factory. All contracts to be made on a flat rate basis.

COBURN GETS PRAISE FROM STATE AUDITOR

Compliments Official on System Adopted at Utah Agricultural College

George T. Judd, deputy state auditor and examiner state officer and state institutions has just finished auditing the books of the Utah Agricultural College. This department of the college is under the direction of John L. Coburn. Mr. Judd expressed himself as being very pleased with the results of his three weeks investigation. Concerning the system of accounts in vogue at the institution he said: "It is the most complete and comprehensive system in use in any of the state institutions. I found the cash book complete in every detail. Especially was I impressed with the completeness of the vouchers. Everyone was examined and contained detailed information. It all indicated to me that the man in charge is very efficient and explained why so few errors were found." When questioned with reference to any recommendations for improvements in the system, Mr. Judd said, "The only improvement that I should make would be to condense the ledger, the main purpose of which would be to furnish the auditor desired information more readily, this would improve the system only from the auditor's standpoint. In no way do I know how it could be made more complete or more modern."

This is Mr. Judd's second trip to Logan to audit the books of the U. A. C. His audit last year was the first in seven years and concerning the results of his work then he said: "It was remarkable that there were such a few errors. I found an occasional error of 2 or 5 cents and inasmuch as there had been no audit for seven years I at once concluded that the system in operation was complete and efficiently administered."

Mr. Judd explained that due to the fact that several years ago a special official had been created to examine state institutions and on account of the low salary provided no one had qualified to do the work and hence it was not done. The work is again under the direction of the state auditor.

From the Logan institution Mr. Judd goes to examine the books of the State Penitentiary. Before entering the state auditor's office Mr. Judd was sheriff of Utah county. He has a very pleasing personality and is extremely taken up with his present occupation.

It is a credit to the Utah Agricultural College and to Mr. Coburn in particular that Deputy State Auditor Judd was able to say so many complimentary things concerning the system of accounts in operation at the College.
